

***Infinity Accounting Helping the United Way for a Better Beaver County!***

The United Way of Beaver County announces a new corporate sponsor, Infinity Accounting and Business Consulting.

Infinity Accounting believes in giving back to the community. There is no better organization than the United Way of Beaver County, who for almost 60 years have helped the less fortunate in our area.

For each new account that Infinity acquires through a Beaver County United Way Referral, a 10% donation of the entire contract will be given to the 2018 -2019 campaign!

Hello!

As a small business owner, you started your business because you are passionate about the products or services you offer. Yet, it is very easy to get bogged down in the “business” of your business. In my nine years of experience in the financial industry, I have met too many entrepreneurs who are frustrated with the financial responsibilities of their business that keep them from doing what they truly love to do. THIS is why I started Infinity Accounting and Business Consulting.

Infinity Accounting and Business Consulting puts small businesses at the forefront of tax planning, bookkeeping, payroll and consulting. We have used our industry experience to put together a business model that offers all of the services a CPA firm can offer at a fraction of the price. In addition to the price being more affordable, I have built a business that recognizes the importance of customer satisfaction and customer support.

Why choose Infinity Accounting and Business Consulting?

- Tax Planning isn't an annual conversation. At Infinity Accounting and Business Consulting, we take the time to get to know you and your business. Our relationships are not based on a once-a-year conversation at tax time. We invest the time and effort to truly understand your business so we can make great business decisions together.
- Ever-changing and burdensome payroll and tax laws are confusing. You started your business so you can do something you are passionate about – NOT because you wanted to stay on top of the latest tax and payroll laws. Let us handle the burden of knowing the latest laws that affect your business.
- Our services are affordable. CPA firms are often too expensive for small businesses. The average full-service CPA firm charges between \$5,500 and \$9,800 a year for payroll, bookkeeping and tax preparation. Because this is cost-prohibitive for most small businesses, many owners make the decision to do their own bookkeeping. This decision often results in a loss of deductions and/or improper filings. We are committed to providing excellent service at a reasonable rate.

- Monthly Check-ins. Each month, our clients receive their financial statements for the business plus an opportunity to schedule a 20-minute check-in with their Account Manager. This check-in ensures that each client understands their financial statements and how they fit with short-term and long-term plans.
- We are connected. With our extensive network of retirement, health care, employee benefits and legal advisors, you will feel confident in not only our accounting, tax and payroll background but of our ability to connect you with other business advisors.

If you are ready to take your business to the next level, please call or email to setup a consultation. We truly look forward to working with you.

Jason S. Smida, CPA/MBA
